At this particular time, when the future outcome of the war seems to be so largely dependent upon the people of the United States, it would be well for all who can to see the screen version of Ambassador James W. Gerard's "My Four Years in Germany," as presented at the Lyric Theater.

There is a very important reason why this picture should be seen, because it is a clear, unbiased and potent way shows what led up to the great war and the almost superhuman efforts made by President Wilson, Ambassador Gerard and others of influence to keep the United States from becoming involved in it.

The world knows that we are now vitally engaged in war. Every man, woman and child in the United States knows it. But what half of the people do not know is why we are in this war, what brought about the crisis and the heroic part that was first played to keep from becoming a party to it.

This is so explicitly and so comprehensively explained in this picture that for this reason if for no other it should be seen by all who desire to be well posted, both with the facts of today and the facts that transpired before we discarded our neutrality.

Too few of us are sufficiently familiar with the absolute facts, the things that happened behind the scenes, the exigencies which made war inevitable, and in this respect the review as offered by Mr. Gerard is of tremendous educational and historical value.

WOUNDED HUN SLEW
BABY OF HIS NURSE.

Boston, Mass.—A tale of German cruelty related by the Rev. Dr. John

Higginson Cabot horrified hundreds here. They had gathered in the church of the Advent to listen to a lecture on "England in War Time."

Dr. Cabot told the story as it came to him from a nurse now in a Boston hospital, formerly of England.

Just after the war started this woman married an Englishman, who was off to the war. He was killed about a year afterwards, just after the birth of a child. The mother when she became strong enough did hospital work, and one of her patients was a captured and wounded German soldier.

The child had grown to be a year and a half old and was playing around the hospital. The mother was obliged to go away for a minute and left the child in the care of the German, who professed great love for the little one.

Hardly had the mother gone from the room before she heard a commotion. Hurriedly returning, she discovered the German trying to force something from a vial into the little girl's mouth.

When asked what he did he replied that he did what he had been ordered to do and was supposed to do. Investigation proved that the vial contained germs of infantile paralysis. The German was shot and the little child died.

WANTS TO WORK PRISONERS.

Before the Fiscal Court adjourned Tuesday it passed an order instructing Judge Champlin to ask for 30 prisoners to be sent here from the penitentiary at Eddyville, provided it is legal to work prisoners on our roads, as laborers on the roads now building in this county. Farm labor and all other kinds is so scarce that it is impossible to secure locally the labor needed to build the roads now under construction.

SOLDIER WEDS.

Douglas McIntosh a soldier in training at Camp Taylor stole away from his khaki clothed friends recently and hid to Hopkinsville where he and Miss Lillian Wolfe were married Monday. The bride is a niece of Henry Wolfe at whose residence the wedding ceremony was performed by Rev. H. H. Jones. Only a select few friends were present, these being close friends and relatives of the bride and groom. The groom will return to camp Saturday.

A shower last night was very helpful to the tobacco that has been set out and makes it possible to finish the planting before wheat harvest begins next week. There have been so many showers recently that fears are already expressed that the bumper wheat crop may be spoiled by a wet harvest.

BOY SCOUTS WANT WORK.

We have a number of Scouts who want work through the summer months. These boys will make faithful and efficient help in town or on the farm, if given a few days in which to toughen up after having been in school.

If you can use some of these boys through the busy season communicate with Alfred S. Anderson, Hopkinsville, Ky., telephone 957. If there are other boys besides Scouts who are anxious to help in the war by working this summer give me your name and I will try to place you.

"Story Will Live As Long As America is a Republic"

Commend Work of American Ambassador.

Washington D. C. —Following a special performance given here tonight of Ambassador Gerard's photoplay story, "My Four Years in Germany," given to help the latest Liberty Loan, President Wilson said:

"Let every American see 'My Four Years in Germany', and Kaiserism will soon be wiped off the face of the earth. This picture will live as long as America is a Republic."

Other prominent Government officials had similar words of praise for the truly wonderful picturization of Ambassador Gerard's own story—a story based on facts and not fiction.

It is hoped of the sponsors for this photoplay that the picture will be seen by every man, woman and child in America, so that all of us can better appreciate just why we are at war.
